5

Strategy for Change

- Morton *et al* (2004):
 - suggested that BtA treatment is safe & effective
 - could be offered at district level as part of an overall package of care for cerebral palsy
 - occasional help from regional centers for more complex case

Ref.:
Morton RE *et al. Arch Dis Child* 2004;89:1133-1137

6

Introduction

- Botulinum Toxin Type A (BtA) injections for spastic muscles in cerebral palsy

first reported by *Cosgrove et al* [1] & *Koman et al* [2] in 1990s

Ref:

1. *Cosgrove AP et al. Dev Med Child Neurol* 1994;36:386-96
2. *Koman LA et al. J Pediatr Orthop* 1993;13:489-95

7

8

Common Brands in Malaysia

- Botox®
- Dysport®

NECIC 2012 Sibul Malaysia

9

Introduction

- Worldwide experience and beneficial effects:
 - physical functioning [1,2,3]
 - quality of life in childhood spasticity [1]
- Cost-effectiveness:
 - Germany: released resources for alternative use [4]
 - USA: did no add to the total cost of care compare to those without BtA treatment [5]

10

Therapeutic Goals

Contracted hips
Sitting posture

NECIC 2012 Sibul Malaysia

Tip Toeing

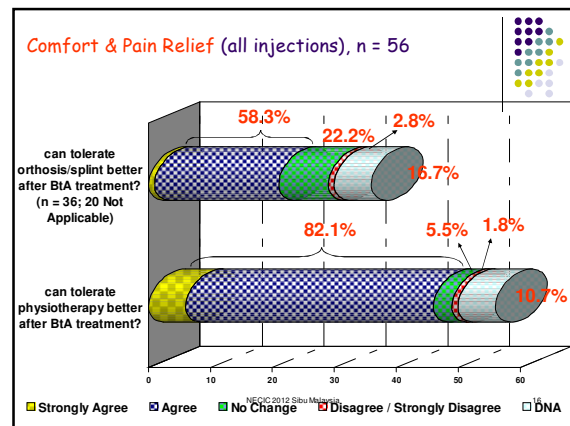

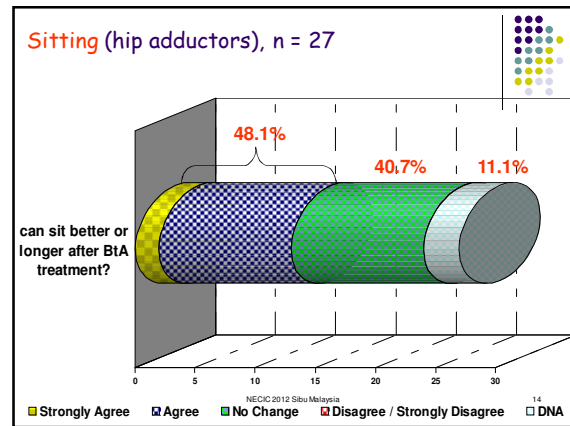

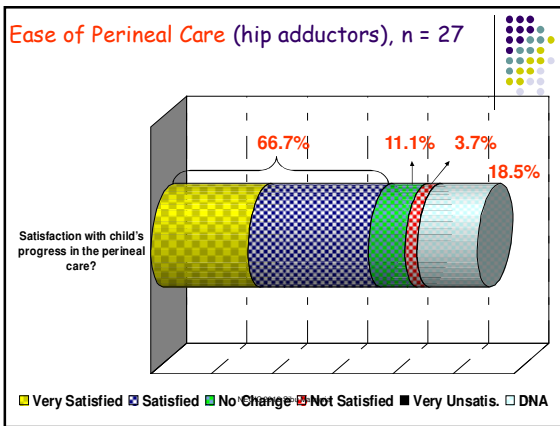

11

Goals - reduce spasticity

- Prevent joint dislocation
- Prevent muscle contracture
- - reduce pain
- - improve functions
- - better hygiene and nursing care
- - drooling

NECIC 2012 Sibul Malaysia

12

Side Effects:

- No major side effects (weakness, urinary retention) reported
- Transient local muscles pain

NECIC 2012 Sibul Malaysia

"miracle" injection is that all you need?

NECIC 2012 Sibul Malaysia

18

The team and the duty

- Physiotherapist
- Occupational therapist
- Nurse
- Orthopaedic Surgeon
- Pharmacist

- Parents
- Child

NECIC 2012 Sibul Malaysia

19

Combined Orthopaedic & Paediatric Clinic

The COP not the CHOP

NECIC 2012 Sibul Malaysia

20

- Not all disease need medicine
- Care is important
- We do need medicine

NECIC 2012 Sibul Malaysia

21

Home Visit & Home O₂ / Ventilation Care

NECIC 2012 Sibul Malaysia

22

Rehabilitation & Mobility Aids

Modified Wheel Chair

Important in rehabilitation of children with Global Developmental Delay & Cerebral Palsy

Wooden Chair

NECIC 2012 Sibul Malaysia

23

- Support the parent to help the child
- Focus on the children and family
- Always think "outside the box" - what's more to offer
- The return is slow!

NECIC 2012 Sibul Malaysia

24

Declaration of Interest

- Study not supported by any grant
- All BtA were purchased by Sarawak State Health Department (except first batch in 2001 donated by Non-governmental Organisation)
- Selection of Brands of BtA is dependent on Preference by Paediatric Neurologists and number of children requiring the injection in each clinic / stock available

NECIC 2012 Sibul Malaysia

25

Are you convinced?

NECIC 2012 Sibul Malaysia

26

Or boring...

NECIC 2012 Sibul Malaysia

27

Thank you
